

Body shape 3	
RF power	Up to 50W (5 levels)
RF frequency	10M Hz
Infrared light power	Up to 20W (5 levels)
IR Spectrum	700nm-2500nm
Negative pressure	0-0.07 M Pa (5 levels) (Pulsed or Continuous)
Rolling speed	82rpm Or 61prm
Treatment Area Size	(Body): 50mm x 55mm (Arm): 37mm x 23mm
Electrical requirement	110/220VAC 50-60Hz 400VA
Dimension(WxDxH)	454mmx390mmx1155mm
Weight	40kg
4 sessions can see good result	
Two RF power supplier	
3 imported Vacuum pump	
Body headpiece and Arm headpiece	
Consumable parts,changeable tip and filters	
Suggest change 3-6months once	
External and internal filter can be changed and cleaned	
Japanese Proportional Valve	
Japanese Motor largely reduced noise and accurate	
User friendly and multi language operation system	
Two treatment modes, Smooth mode and Shape mode	
CAN bus embedded, real-time control smoother operation	
The adjustable release and suction time
